Boating Facilities in the Canals

Gosford Council is again on the Look out for unauthorised boating facilities including moorings, pontoons and walkways in the canals and at Council meeting on February 1st 2011 resolved that legal action be commenced against any owner of a facility which is not the subject of a development application or consent after 1 April 2011.

Boat owners and drivers you are responsible for the safe operation of the craft.

The Canals of St Huberts Island are 4 Knot Max Speed No Wash Zones Towing boards and tubes is not allowed.

Maritime Services have stepped up their attention to boaties young and old who disregard the rules. The penalty fines are quite large. We don't want that to happen, so owners and drivers of jet skis, runabouts or larger boats do your part to prevent erosion and damage to the foreshore. The Council, owners of the Canals have no maintenance programme and have neglected the Canals for 30 years.

If you are concerned about boating behaviour or an accident
Telephone Maritime Services 13 12 56.

Information required: Boat Registration Number and brief description of the incident.

AGM Meeting Guest Speaker: Lynn Eames

Lynn is a special teacher in the early intervention support learning programme at the Woy Woy primary school. This programme brings together pre-school age children who have individual disabilities and prepares them to take part in school activities and learning.

The children come from areas in the local community and meet and make new friends as well as allowing parents and carers to meet.

We earnestly invite you all, parents and grand parents to come and hear of the wonderful work being carried out by our teachers. You will hear of the new learning strategies for these special needs children.

Power upgrade for St Huberts Island

Residents no doubt recall receiving a letter from Energy Australia in December 2010 advising of St Huberts Island electricity supply upgrade.

There was very scant detail in respect to the upgrade but contact has been made with Energy Australia representatives and I hope to have some more answers for residents in respect to this project at the meeting.
